

To: students and junior employees in the field of surface technology

We are looking for you!

You are studying material science, engineering or science and you are dealing with topics of surface technology? Come to V2019 and meet your future employer.

Our offer for you:

- Learn more about 70 potential employers in our industrial exhibition at the path for future professionals at V2019
- Visit the starting program of 2nd V-Day for free, learn more about research with and for industry and listen to the winner's lecture of **Rudolph-Jaeckel-Preis 2019** (in German Language!)
- Learn more about networks, which can help you starting your occupation (traineeships, final papers, first job or dissertation) and test them!
- Optional: Your Profile as job applicant at the black board
- Visit the Lecture of Prof. Tuomo Suntola, Finland (**Millennium Technology Prize 2018**) to the topic „Atomic Layer Deposition“
- You are working with ALD or techniques for surface technology? Present your poster at V2019. Deadline for submission: August 31, 2019
