

V2019 – Conference & Industrial Exhibition

Talks, Discussions, News and Trends. Here experts and beginners, technologists, users and deciders from the field of plasma and vacuum surface technology meet to discuss and plan the future of surface technology. Join us and find your suitable place at our event as visitor, exhibitor or sponsor.

This year the emerging technology **ALD will be highlighted**. Learn more about the technology at the ALD Lecture and find the appropriate expert as your new staff member or your new job at the professional recruiting event. In the subsequent ALD workshop you can hear more about recent developments and technological details.
